## Being a premium manufacturer...

representative firm, we consider it our obligation to ensure an optimal amount of support for the manufactures we represent. Jester Associates is been proud of the reputation we have built representing architectural hardware products and related manufactures for over 50 years. We are an independently owned and family run company with a tradition of innovation and excellence in the industry. Our Sales Team's attentiveness to customers needs sets a standard of care and service unmatched in the Mid-Atlantic market.

Our staff is well versed on the current fire, life and safety codes. We also have the ability to help create effective access control using mechanical and electric hardware products, together with our extensive systems knowledge.

We conduct educational classes throughout the year for architects, building owners and dealers, to increase their product knowledge/awareness and discover the best options and applications to meet their opening needs.

Jester Consulting is a part of the Jester Group of companies providing specification writing and consulting services for commercial, industrial and architectural doors, frames, finish hardware, electronic security and access control hardware.

Since the early 1970's the Jester group of companies has been providing leading Mid-Atlantic Area Architectural Firms and Property Development Firms with Division Eight (8) Specifications. The range of projects we specify includes;

- K thru 12
- Government
- Design Build
- Historical
- Museum
- Higher Education
- Industrial
- Retail
- Hospitality/Condominium
- Multi-Family
- Health Care
- Pharmaceutical
- Senior Housing
- Corrections
- Campus Housing

Our Specification Sections include:

- FRP and Aluminum Doors and Frames
- Hollow Metal and Stainless Steel Doors and Frames
- Flush Wood, Stile & Rail and MDF Doors
- Finish Hardware
- Electronic Security & Access Control Hardware
- Specialty / Custom Openings

Jester Consulting works with building owners, Facility Directors and End Users to help establish door opening standards to meet each buildings function and security requirements.

Additional services include:

- Complete Door Entrance Budgets
- Continuing Education Courses includes AIA/CES programs.
- Field Survey of Existing Openings
- Coordinating Door Security & Access Control Requirements
- Field inspection and Reports for installed Finish Hardware
